

Case Study

Power BI Dashboard & Forecasting for Luxury Property Maintenance

ABOUT US

BlueArc Technologies is a leading provider of AI-driven business process automation, empowering organizations worldwide to achieve operational excellence.

We help businesses turn inefficiencies into growth opportunities, driving innovation through tailored, transparent automation solutions that deliver measurable results and sustainable impact.

CHALLENGE

The client, a luxury property maintenance company, struggled with inconsistent and unreliable data, a lack of dashboards tailored to daily operations, and limited visibility for managers and crews into day-to-day activities. With undefined KPIs, measuring performance was nearly impossible, and decision-making often relied on guesswork rather than actionable insights. These challenges made it difficult for leadership to monitor field operations effectively and plan for sustainable growth.

COST OF NOT CHANGING

Without a structured reporting system:

- Productivity and team performance would remain unpredictable.
- Management would waste time compiling manual reports.
- Missed sales trends could lead to lost revenue.
- Operational issues would go unnoticed until critical.
- Strategic planning would stay slow and inaccurate.

SOLUTIONS

BlueArc Technologies deployed a Power BI Dashboard and Forecasting System that unified data across operations, sales, and finance, delivered interactive dashboards, and standardized real-time reporting. By ensuring data accuracy, defining KPIs, and adding trend analysis with forecasting, the solution provided transparency and empowered faster, more confident decisions.

OUTCOME

The impact was transformative: leadership gained real-time visibility, managers and crews tracked activities efficiently, and forecasting tools improved seasonal planning. Decision-making became faster and data-driven, while operational transparency and performance measurement soared. The client is now equipped to scale, reduce inefficiencies, and plan strategically with confidence.
